ABOUT ME

As a highly skilled dental technician with a passion for creating highquality dental prostheses, I am looking to secure a position where my skills in fabricating and repairing dentures can be highly optimized and used. I have extensive experience constructing dental prostheses for implantology, including restoring or replacing natural teeth with crowns, fixed bridges, dentures, and dental implants. With a strong focus on detail and accuracy, I am committed to ensuring the highest level of patient satisfaction using the latest dental laboratory technologies and techniques. I am eager to join a team that values innovation and continuous improvement and contribute my skills and knowledge to help achieve any organization's and medical goals.
